

Document Type	Supported Manipulations	Input Method(s)	Detailed Feature Set & Capabilities
1. PDF Documents (.pdf)	Creation / Conversion	Scan (Camera) / Upload	Image to PDF: Multi-page compilation, auto-deskewing, margin adjustment.Document to PDF: (DOCX, XLSX, PPTX) High-fidelity layout preservation via bundled LibreOffice.PDF to Image: Extract specific pages as PNG/JPG (define DPI).PDF to HTML/Text: Extract content for web or plain text use.
	Page Management	Upload	Merge: Combine multiple PDFs/Images into one unified document.Split: Extract specific pages, split by size/bookmark, batch split.Organize: Drag-and-drop page reordering, rotation, extraction, deletion.
	Deep Content Editing	Upload	Text Editing: Real inline text reflow, insert/delete text blocks, font management.Image Editing: Insert new images, delete existing, Replace Image: Swap existing images retaining position/scale.Annotation: Add text boxes, sticky notes, highlights, drawings, stamps.
	OCR & Scanning	Scan (Camera) / Upload	Image-to-Searchable PDF: Run Tesseract OCR on image scans, overlay text layer.Table Data Extraction: Draw boxes around tables in PDFs/scans to export as structured CSV/JSON.
	Security & Optimization	Upload	Encrypt: Add user/owner passwords (AES encryption).Decrypt: Remove password (requires knowledge of original).Redact: Permanently black out sensitive text/metadata.Compress: Downsample images, remove redundant objects, optimize fonts.
	Interactive Forms	Upload	Form Builder: Add text fields, checkboxes, radio buttons, dropdowns to static PDFs.Data Fill: Populate existing form fields from a CSV/JSON dataset.
2. Images (.jpg, .png, .webp, .heic)	Format Conversion	Scan (Camera) / Upload	Format Interconversion: Batch convert between JPG, PNG, WebP.HEIC to JPG: Seamless conversion for iOS photos.Vectorization: Convert raster image (logo, icon) to scalable SVG.
	Image Editing	Scan (Camera) / Upload	Transform: Bulk Resize, Crop (fixed ratios or freehand), Rotate, Flip.Adjust: Brightness, Contrast, Saturation, Sharpness.Filter: Grayscale, Sepia, Invert Colors.
	Smart Tools	Scan (Camera) / Upload	Background Removal: AI-powered automatic background masking and removal.Watermark: Add text or image watermarks with opacity/positioning controls.
3. Office Docum	Conversion	Upload	To PDF: Convert Word, Excel, PowerPoint to PDF, retaining formatting.To HTML: Convert Word documents to clean HTML for publishing.

ents (.docx, .xlsx, .pptx)			
4. Video & Audio (.mp4, .mov, .avi, .mp3, .wav)	Format Conver sion	Upload	Video Container/Codec: Change MP4 → MKV → AVI → WebM.Audio Codec: Change MP3 → WAV → FLAC.Bitrate/Resolution: Scale output quality and size.
	Video Editing	Upload	Trimming: Precisely cut start/end points.Merging: Combine multiple video clips.Volume: Normalize audio, boost volume, extract audio stream.
	Video → Frame s	Upload	Frame Extraction: Extract a specific timestamp as an image.Sequence Extraction: Extract every frame as an image.Frame Rate Control: Define output FPS (e.g., 60fps video → 1fps image sequence).
	Frame s → Video	Upload	Image Sequence → Video: Compile image folder (timelapse) into MP4.Image Sequence → Animated GIF: Compile image folder into looping GIF.
5. Archive s (.zip, .rar, .7z)	Extracti on	Upload	Unzip/Unrar: Extract all files or selected files to a target directory.
	Creatio n	Upload	Zip: Compress selected files and folders into a new archive.
6. AI Assista nt (Guida nce Layer)	Contex t-Awar e Routin g	Text Input (Chat)	Intent Recognition: User describes task (e.g., "I need to sign this PDF").Tool Recommendation: AI suggests the "Sign PDF" tool and provides a direct link.Contextual Tips: AI offers guidance on the active tool (e.g., "Ensure the PDF is not encrypted before running OCR").
